Delft, September 2002

Dear [ESS'2002](#) author,

We congratulate you with the acceptance of your submission as an **EXTENDED** paper, after rigorous reviewing by the Program Committee. Enclosed you will find the author kit for preparing your final paper for the [2002 ESS](#) Conference. Please note the paper submission deadline, which is **October 1, 2002**. This is a hard deadline, and the papers received after that date cannot be included in the Conference Proceedings and in electronic format.

The general and detailed comments, if any, of the separate referees, have been sent by email. The comments are presented in their own words, and it might be possible that they did not fully understand your abstract because of differences in interest or opinion. Please, incorporate the comments in your full paper as much as possible, in order to improve the quality of your paper and therewith the quality of the Proceedings and the conference. The Program Committee will judge the full papers as well.

As we also will produce the Proceedings in electronic format, we would also like to receive, next to the printed version, your full paper on floppy disk or by email **in the following formats only: PDF (preferred format*) or MS-Word or PostScript or RTF for Windows^(*) Plus your paper title, authors' names, keywords and biography in ascii- and html format.** Even if you send your paper electronically, do send one printed version by normal mail, in case of possible mishaps. Send the electronic version of your paper to a.verbraeck@tbm.tudelft.nl, the Program Chair of the conference. Send the paper version to the address of SCS Europe BVBA above.

If you have any further questions or requests you can contact me. Further information about the conference will be published in the Preliminary Programme and on our website on URL <http://www.scs-europe.org> (and for the moment <http://simulation.tudelft.nl>). The [hotel information](#) is also online at the Website. See you in [Dresden](#).

Yours Sincerely
Alexander Verbraeck
Program Chair ESS2002

*** as we are striving for higher quality and uniformity of presentation we urge you as an author to use the Adobe PDF format for submitting your electronic paper.**
